IntelliCorp Expands Distribution in France and Switzerland

Partnership with Invarture Offers SAP Customers Increased Return on SAP Investments

Santa Clara, Calif., Dec. 21, 2009 – IntelliCorp, a worldwide provider of application lifecycle management (ALM), business process and data management software for SAP users, today announced a partnership with Invarture to expand software distribution to France and Switzerland. An SAP software reseller based in France, Invarture now offers IntelliCorp LiveCompare™, LiveModel™ and DataWorks™ to its global SAP customer base.

“Invarture anticipates the software needs of sophisticated SAP users,” said Jerry Klajbor, CEO for IntelliCorp. “By reselling LiveCompare, Invarture enables SAP users worldwide to benefit from automated impact analysis technology that saves SAP ALM time, cost and risk.”

IntelliCorp’s software is used by more than 35% of the *Fortune* 500 companies that run SAP to reduce their total cost of ownership. For customers, increased system knowledge, efficiency, and individual and team productivity result in greater return on SAP investment by improving upgrades, consolidations, support packs, compliance, process management, testing, training and other SAP lifecycle activities.

Invarture Offers IntelliCorp Software, as well as RSC’s Rev-Trac®

In August 2009, IntelliCorp announced LiveCompare’s integration with Revelation Software Concepts’ Rev-Trac change control solution to extend an SAP customer’s ability to better manage system changes and transitions

<<http://www.intelicorp.com/Press.aspx>>. Invarture is also a Rev-Trac distributor.

“Invarture provides customers with proven software that offers every opportunity to maximize SAP investments,” explained Herve Hababou, managing director for Invarture. “Our partnership extends IntelliCorp’s global reach to help SAP installations more effectively manage SAP ALM.”

IntelliCorp’s SAP-certified software supports SAP versions 4.6 and above, including the latest ECC 6.0 platform on all SAP supported hardware and RDBMS systems. In addition to core ERP, LiveCompare, LiveModel and DataWorks are compatible with all SAP ABAP and Java-based products, and support SAP Industry Solutions that run on the ECC platform.

About IntelliCorp Inc.

IntelliCorp provides SAP application lifecycle management, business process management and data management products for SAP customers and partners. IntelliCorp’s LiveCompare, LiveModel and DataWorks products automate the analysis of SAP systems and are SAP Integration Certified.
