### **IntelliCorp Adds Java Capabilities and BW Support to LiveCompare**

*Customers Benefit from Increased TCO Savings Across SAP Portfolio with Intelligent Impact Analysis*

**Santa Clara, Calif., May 13, 2009** – IntelliCorp, a worldwide provider of application lifecycle management, business process and data management software for SAP users, today announced the availability of LiveCompare™ 2.2. The latest version of IntelliCorp’s unique intelligent impact analysis software enables customers to further reduce the total cost of SAP ownership (TCO) by expanding capabilities across SAP’s product portfolio, with support for Business Warehouse (BW) and the Java technology stack.

“BW is critical to a company’s SAP environment, but its complexity means that costs and risks for improved business intelligence can quickly escalate,” said Christopher Trueman, CTO for IntelliCorp. “LiveCompare now brings SAP customers leveraging BW and Java the benefits of intelligent impact analysis for synchronization, upgrades, support pack implementations and all lifecycle activities.”

#### **IntelliCorp LiveCompare is the Only Intelligent Impact Analysis Software for SAP**

LiveCompare automatically answers the two fundamental questions that underpin every SAP lifecycle activity: What is changing? *and* What is the impact of change? Empowered with the answers, SAP customers immediately improve efficiency, while reducing risk. LiveCompare’s 120+ customers, which include 35 percent of the *Fortune* 500 companies that run SAP, have seen 25-30 percent TCO savings for individual lifecycle activities and experienced an ROI of more than 80 percent.

“LiveCompare’s system of impact analysis is *intelligent* because it includes a number of smart filters that eliminate false positives, which are changes that have no impact on the running of the system,” explained Trueman. “The new technology in LiveCompare positively affects every business and operational aspect of an SAP ERP system, including the reduction of maintenance costs.”

LiveCompare 2.2 runs “out of the box” and includes more than 200 templates to improve a range of SAP lifecycle activities and products including SCM, Audit, Basis, Consolidation, Human Resources, Java Analysis, Upgrade Analysis, Business Process Analysis, Support Pack and Synchronization. LiveCompare also includes a visual designer called *Studio* that enables customization of any template, or the ability to assemble new ones. This flexible approach to impact analysis means that, in just hours, LiveCompare can be readily adapted to solve customer-specific SAP challenges.

LiveCompare 2.2 supports SAP versions 4.6 and above, including the latest ECC 6.0 platform on all SAP supported hardware and RDBMS systems. In addition to core ERP, LiveCompare is compatible with all SAP ABAP and Java-based products and supports SAP Industry Solutions that run on the ECC platform. LiveCompare is SAP Integration Certified and compatible with NetWeaver.

LiveCompare 2.2 recently debuted at SAPHIRE/ASUG, as well as SAP’s EcoHub community-powered solution marketplace <<https://www.sdn.sap.com/irj/ecohub/solutions/LiveCompare>>, where user feedback, product ratings and demos, give customers another venue for identifying SAP-certified partners. For pricing and further information on how IntelliCorp LiveCompare can reduce SAP TCO, email [sales-info@intelicorp.com](mailto:sales-info@intelicorp.com), or call 508-621-1600 in the US and +44 (0) 1454 454 100 in EMEA.

### **About IntelliCorp Inc.**

IntelliCorp provides SAP application lifecycle management, business process management and data management solutions for SAP customers and partners. IntelliCorp’s LiveCompare, LiveModel and DataWorks products automate the analysis of SAP systems and are SAP Integration Certified. Increased system knowledge, efficiency, and individual and team productivity reduce the time, costs and risks associated with SAP lifecycle events, such as upgrades, consolidations, support packs, compliance, process management, testing and training. Founded in 1980, IntelliCorp is headquartered in Santa Clara, California, has offices throughout the US and Europe, and maintains partner and distributor relationships worldwide. For product or partnership information, email [sales-info@intelicorp.com](mailto:sales-info@intelicorp.com), or call 508-621-1600 in the US and +44 (0) 1454 454 100 in EMEA.
